The research tackles a phenomenon in which poet Da‘bal Al-Khuza‘i excelled in; that is the significance of location. The poet has employed his literary and conceptual abilities in revealing the importance of location in influencing the receiver, especially in the poems that talk about the issues of the people of the prophet’s household (p.b.u.t).

The researcher has made it clear how the poet has succeeded to visualize what happened in the Battle of Al-Taf, and what happened there to the prophet’s Household of tragic events which were not preceded. The researcher identified the location referred by the poet which became holy shrines visited by millions of people. Comparisons are also made between the old and new references to locations. Thus, the research examined locations from different perspectives.
